

FOR PARENTS: FEEDBACK EXPECTATIONS IN GOOGLE CLASSROOMS

An adapted copy of the pupil-friendly marking code (see below) will be posted on google classrooms as a reference for both children and their parents. This will be kept near the top for quick reference.

- Where possible, feedback via google classrooms will aim to mirror that given in the classroom. As with live classroom teaching the aim is both to gather feedback for assessment: that is to inform the next lesson's teaching; and to give students encouragement and specific guidance on how to improve.
- Children are expected and encouraged to proof-read and check their work for spelling and grammar accuracy before they submit it.
- Teachers will not 'mark' every piece of work, but they will look at every piece of work.
- Teachers will view every piece of work to assess how much the child has learnt.
- Teachers will provide feedback on key pieces of work.
- Please do not expect teachers to mark all work. They are focusing on personalising the lessons rather than ticking sheets which is a much better use of their time in supporting learning and mirrors what happens in school.

In mathematics some of the codes below may be used.	
E	I need to explain my thinking in words, using a picture or diagram or drawing some mathematical apparatus
P	I need to prove I am correct using a different method, showing all my steps, using a drawing or diagram of apparatus
A	I need to show an alternative way to solve this problem
