HOME LEARNING

Science

We have been discussing reflective surfaces in our science lessons. Can you write a list of as many different reflective things that you can find in your house e.g. reflective coat, bike reflectors, mirror etc.

Maths

Please log in to TT Rockstars and have a go at practising some more of your times tables. We are working on the 4x table in class but TT Rockstars will help build your fluency in the other times tables too.

Reminders:

- Due to the weather being so interchangeable at the moment, please ensure full (named) PE kits are in school each day. Thank you.
- Forest school lessons are also on a Thursday. If you would like to bring wellies and a change of clothes for these sessions, please ensure they are named.

Dear Parents,

We have had such a busy week this week in the Nightingales. We have had a wonderful time today, raising money for Children in Need and I would like to thank you for all the donations that we received.

In English this week, we have been exploring characters. We have been thinking about characters that we know from stories and what we like about them as well as creating our own characters for our own stories.

In maths, we have been focussing on regrouping when using the column method to add numbers together. Year 3 have been focusing on adding 2-digit numbers to 3-digit numbers and Year 4 have been working on adding two 4-digit numbers together. The children have shown a really good understanding of the method used and have started to be able to solve problems using this method too.

In history this week, we continued to use sources to help us explore the different types of jobs people may have had during the Medieval period. We then discussed which of the jobs we explored we would prefer and which we thought could have been one of the more difficult roles. We had a great time discussing the options and sharing our ideas!

I hope you all have a wonderful weekend,

Mrs Davis

This half term we are aiming to have our weekly attendance above 98%.

Star of the Week

This week, our award goes to **Milo** for showing perseverance with his writing this week! Well done Milo.

Important!

Thank you for all your donations for Children in Need. 😊

Together we grow, Together we flourish

TOGETHER WE EMPOWER EXCELLENCE
